PROFESSIONAL PROFILE & CERTIFICATES PORTFOLIO

Eng. Elsayed Amer Hassan

Operations Manager | Senior Petroleum & Process Engineer | Oil & Gas Training Consultant

14+ years in upstream oil and gas

- Gas compression, wellhead compression and zero-flaring production recovery
- Natural gas processing, process simulation and commissioning
- Well intervention, completion, well testing and well integrity
- Technical training: 2,000+ hours delivered since 2015
- Saudi Aramco and ADNOC field operations; Saudi Arabia, UAE and Egypt

Saudi Council of Engineers – Engineer, Petroleum Engineering (No. 851699)

SPE Member No. 4081183 | SPE-published author (4 papers, 2025 – 2026)

PROFESSIONAL PROFILE

Operations leader and petroleum engineer with 14+ years of upstream oil and gas experience across Saudi Arabia, the UAE and Egypt. Currently Operations Manager – Gas Compression Services at Petrogistix, leading a 20-person engineering and field team that delivers wellhead compression, well services and early production facilities for Saudi Aramco. Previously led ADNOC onshore wellhead services and zero-flaring well revival, and built hands-on foundations in well intervention at Wintershall Dea, gas processing at SUCO and drilling tools at Weatherford. Independent oil and gas training consultant since 2015 with 2,000+ hours delivered in six countries, and SPE-published author.

14+	20	2,000+	4	6
Years in oil & gas	Team members led	Training hours delivered	SPE / URTeC papers	Countries trained in

Selected Achievements

- Engineered and commissioned Saudi Aramco's first ultra-low-pressure wellhead compression system (HRDH-1390, Haradh GOSP-4, sour service), recovering 5 MMSCFD of gas and 500 BPD of condensate.
- Delivered ADNOC zero-flaring well revival at Bab, Asab and Rumaitha, restoring 15+ wells to 4,000 BOPD and 3 MMSCFD through separation, mobile compression and RTP export.
- Managed contracts of SAR 5 million (Saudi Aramco operations) and USD 2 million (ADNOC), and project budgets up to USD 3.5 million.
- Directed pipeline degassing and gas recovery operations transferring trapped gas into live networks without routine flaring.
- Sustained compression and production equipment uptime above 95% through preventive maintenance and field logistics control.

Core Expertise

- **Operations:** operations management, contracts, budgets, procurement, vendors, mobilization, KPI reporting, team leadership
- **Compression & Processing:** reciprocating and screw compressors, wellhead compression, separation, glycol dehydration, LTS, EPF, sour service
- **Wells:** coiled tubing, nitrogen lifting, stimulation, wireline, slickline, recompletion, sand control, well testing, well integrity
- **Engineering Tools:** Aspen HYSYS (steady state and dynamics), OLGA, PIPESIM, Eclipse; P&IDs, datasheets, hydraulics, commissioning procedures
- **HSE & Standards:** PTW, SIMOPS, LOTO, H2S, HAZID, HAZOP, PSSR, PSM; Saudi Aramco SAES/GI; NACE MR0175/ISO 15156

CAREER HISTORY

Reverse chronological. Supporting employer documents are referenced in Section C.

Period	Position, Organization and Scope
Feb 2024 – Present	**Operations Manager – Gas Compression Services** *Petrogistix Petroleum & Energy Logistics and Services Co. | Al Khobar, KSA* Leads a 20-person team delivering wellhead compression, well services and early production facilities for Saudi Aramco; HRDH-1390 ULWHC; pipeline degassing; SAR 5M contract.
Sep 2023 – Feb 2024	**Operations Manager – Wellhead Operation Services** *Petrogistix | Abu Dhabi, UAE* ADNOC onshore well revival at Bab, Asab and Rumaitha; 15+ wells restored to 4,000 BOPD and 3 MMSCFD; RTP tie-ins; USD 2M contract.
Apr 2021 – Sep 2023	**Senior Petroleum Engineer** *Petrogistix | Saudi Arabia* Engineering, process simulation and commissioning support for compression and temporary production facilities at Haradh, Khurais, Shaybah, Khursaniyah and Harmaliyah.
Sep 2018 – Mar 2021	**Senior Production Engineer – Well Intervention Services** *Wintershall Dea | Egypt* Coiled tubing, nitrogen lifting, acid stimulation, wireline, recompletion, gravel pack; flow-to-clean, multirate and buildup testing; well integrity.
2014 – 2018	**Natural Gas Process Engineer (Senior Engineer, Operations)** *SUCO – Suez Oil Company | Egypt* Gas receiving, separation, glycol dehydration, refrigeration and LTS; compression, condensate and LPG handling; permit-to-work area authority.
2012 – 2014	**Field Engineer – Drilling Tools and Services** *Weatherford Drilling International | Western Desert, Egypt* Testing, inspection, maintenance and troubleshooting of drilling tools and downhole equipment.
2015 – Present	**Independent Oil & Gas Training Consultant** *Training centres, operators, SPE and AAPG | International* 2,000+ hours of technical training in Egypt, UAE, KSA, Iraq, Oman and Turkey.
2021 – 2024	**University Lecturer – Natural Gas Processing and Pipeline Transmission** *Al-Azhar University, Faculty of Engineering (Qena) | Egypt (remote)* Delivered the Natural Gas Processing course to senior B.Sc. Petroleum Engineering students.
Feb 2023 – Present	**Technical Consultant (part-time)** *Automata Intelligence | UK (remote)* Petroleum engineering expertise for AI applications in upstream operations.
Apr 2026 – Present	**Technical Consultant** *SQUARE Maintenance Co. | Remote* Project execution strategy and operational readiness across the GCC and Africa.

Education

- **B.Sc. Natural Gas Engineering (Credit-Hours System),** Port Said University, Faculty of Engineering – May 2012. General grade: Very Good; Graduation project: Excellent. (Exhibit A-01, A-02)
- **Master of Business Administration (MBA),** Universidad Tecnológica Atlántico-Mediterráneo (UTAMED), Spain – In progress.
- **CMI Level 7 Certificate in Strategic Management and Leadership Practice,** Chartered Management Institute (CMI), UK – In progress.

TRAINING DELIVERY AND PUBLICATIONS

Courses designed and delivered for engineers, supervisors, technicians and operators through training centres and operators including PE Academy (Iraq), Zoe Talent Solutions (UAE), Pideya Learning Academy (UAE), Mercury (UAE), MTC (Egypt), OGS (Egypt) and EcoMan Training, and for SPE chapters (Egypt, Algeria, Yemen, UAE, Iraq, KSA) and AAPG (Iraq, Egypt).

Discipline	Representative Courses Delivered
Gas Processing & Facilities	Natural Gas Processing and Conditioning; Gas Treating and Sulfur Recovery; Troubleshooting Gas Processing Facilities; LNG, LPG and NGL Technology; Oil and Gas Processing Facilities for Operations and Maintenance; Process Plant Equipment
Compression & Simulation	Gas Compression Operations; Pumps and Compressors; Practical Computer Simulation Applications in Gas Processing (Aspen HYSYS)
Production & Wells	Fundamentals of Petroleum Engineering; Oil and Gas Production Technology; Gas Well Performance; Well Stimulation and Production Enhancement; Artificial Lift; ESP Technology
Drilling, Completion & Intervention	Drilling Practices; Drilling Fluids; Casing and Cement Design; Well Completion Engineering; Sand Control; Workover Technology; Coiled Tubing and Wireline; Wellhead and Christmas Tree Equipment
Pipelines & Measurement	Oil and Gas Flow Assurance; Pipeline Transmission Engineering; Pipeline Pre-commissioning and Commissioning; Onshore Gas Gathering Systems; Flow Metering and Custody Transfer

D. TRAINING DELIVERY, TEACHING AND PROFESSIONAL RECOGNITION

Evidence of training delivery, university teaching and professional society recognition.

D-01 Certificate of Appreciation – MTC Instructor, Well Completion and Workover Course

EEGS Suez University Student Chapter / MTC | –

Al-Azhar University Faculty of Engineering –Qena Mining and Petroleum Eng. Dept.		جامعة الأزهـــــر كلية الهندسة بنين بقنـا قسم هندسة التعدين والبترول

Dear Eng. Elsayed Amer
Senior Petroleum Engineer
Petrogistix Petroleum logistics service Co. KSA

As per your previous assistance to senior grade class (Bachelor degree) -Faculty of Engineering- Al-Azhar university of delivering natural gas processing course for 2021-2022 semester.

We are seeking your usual cooperation to deliver the same course to the new senior student class for the upcoming semester 2022-2023, which will inquire one lecture per week (3 hours) as per department management schedule.

Course content, Quiz & exams will be always checked and approved with a full supervision of petroleum engineering department management staff.

Warm regards,

Head of Mining and petroleum Engineering Department

Prof. Abdel-Nasser Mohamed Omran

Vice Dean

Prof. Mohamed Mahmoud Ali Moustafa

Dammam, 34716
Saudi Arabia

Via email : eng20072007@gmail.com

Dear Mr. Elsayed:

On behalf of the SPE Basra Section, I would like to thank you and Petrogistix Company for your continued support for the activities of SPE Basra University for Oil and Gas Students Chapter (SPE BUOG).

SPE is a key resource for technical knowledge related to the upstream segment of the oil and gas industry, providing services through publications, events, training courses, and online resources.

From the SPE president to committee members, authors, lecturers, and many more, volunteers provide the leadership of SPE for the benefit of other members and the industry. They help shape member programs and disseminate technical information to E&P professionals around the world. Volunteering also provides opportunities for members to gain valuable experience and expand their skills in a nontraditional way.

Our volunteers help ensure that SPE continues its vital role in helping industry professionals meet the changing and diverse challenges of the future.

We could not do this without your support.

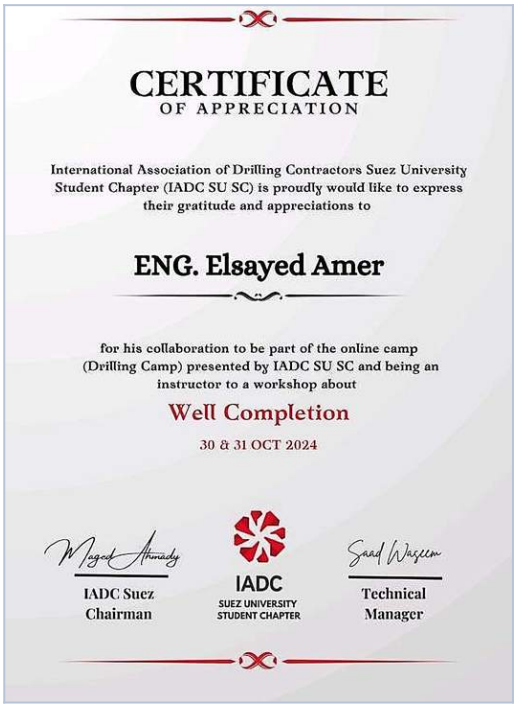

Sincerely,

W. Al-Mudhafar

Dear el sayed,

Congratulations on becoming a valued member of the Division of Environmental Geosciences of the American Association of Petroleum Geologists. Your membership certificate is enclosed. As a DEG member benefit, you will receive our peer-reviewed quarterly journal, *Environmental Geosciences*.

Our Division's objective is to promote the leadership position that the petroleum industry is taking with environmental, health, and safety issues and to provide the AAPG with an environmental voice in the public arena. Your participation in the DEG will afford you the opportunity to expand your professional and business relationships as well as broaden your personal exposure to the national and global environmental issues affecting our industry.

I urge you to participate as an active member to help stimulate new membership in this Division and the AAPG. An active membership is a characteristic of a successful organization. I encourage you to attend and to contribute to DEG programs and activities at sectional, national, and/or international meetings. The DEG has several standing committees: Continuing Education, Honors and Awards, Liaison, Membership, Publications and Web Site, as well as, ad hoc committees: Geohazards, Health & Safety, Programs, and Research. Please visit our website at *www.deg.aapg.org (or go to the aapg.org site, Division menu; click on DEG)* and review the description of each committee. If you are interested in serving on a committee, contact the chairman using the information listed on our website. Our website is kept current, and it will be modified regularly during the year to provide our membership with pertinent DEG employment and environmental information.

Again, I welcome you as a new member of the Division of Environmental Geosciences. I look forward to visiting with you personally at AAPG meetings or hearing from you via e-mail. Please feel free to contact any member of the leadership team with questions or comments as to how we can better serve you, the DEG membership, and the AAPG.

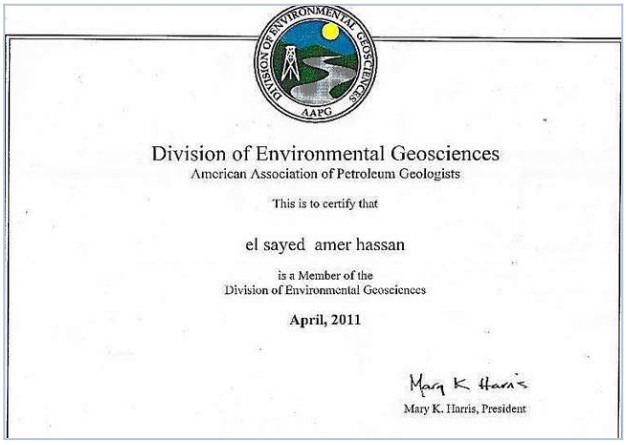

Yours truly,

Mary K. Harris
